Parking

Parking is getting tighter as more residents are moving in with vehicles. Due to this, we want to make sure our Residents with vehicles have priority parking. So any resident with a caregiver: please ask caregivers to park out by the office/main building. This way the spaces behind the building are available for the residents.

Thank you for your continued patience in this matter. We have always made improvements to the campus and we will continue working to address the parking availability as we have with other campus items.

Please stay on the sidewalks (and off the rocks)...

Just as our previous grass landscaping was not safe to walk across due to unevenness and sprinkler heads, Residents should likewise avoid walking on our new Xeriscape (Desert) landscaping.

Please remember:

- Always use our many **paved walkways** to move around our campus.
- Don't enter or exit your first floor apartment from your patio and across the rocks.
- Never let your dog use the rocks as a restroom. The grass courtyard by the office is currently the only designated area for dogs to take care of business.

We know our residents like efficiency, and so have added the additional sidewalks so that everyone will be able to quickly and efficiently get from point A to point B without the need to cut across the areas that are off-limits. *Also note: **Residents walking across the landscape may begin to receive lease violation notices for not staying on sidewalks.** Thank You!

If you get Wrong Mail...

Just a reminder, double check the names on all packages. If you get mail or a package that is *not* yours, you may drop it in the dropbox or bring it to the office. If you are experiencing this often, please call your local USPS and make sure your name is displayed with your apartment number in the plastic pocket in your mailbox to help!
